

Important Information about Lipitor® (atorvastatin)

On December 1, 2011, the generic version of Lipitor® became available. If your physician did not check "Dispense as Written" on your prescription on file, you will receive a generic upon your next refill. However, if your physician does not recommend taking a generic, you will need to obtain a new prescription for Lipitor® indicating "Dispense as Written."

**Lipitor® is used for the treatment of high cholesterol. This is an informational document, and nothing herein represents the promotion of any drugs or drug manufacturers by Publicis Groupe or our pharmacy provider, Prime Therapeutics LLC.*
